

Program Name: Spectrum Health/Michigan State University

Size of intern class: 4

Application Process: Applications are accepted through ERAS only and we participate fully with the NRMP. Applications are reviewed in a holistic way to identify residents who are truly interested in Med-Peds and would be a good fit for our program. All interviews will be conducted virtually.

Number and types of letters of recommendations: We require 3 letters of recommendation with no specific type required. We strongly encourage letters from people who have had the opportunity to observe you closely in a clinical setting.

Application review/invite timeline: Applications will be reviewed, and invitations will be sent on a rolling basis until all interview appointments are full. We anticipate sending invitations to interviewees at the end of October beginning of November. If you have not received an invitation to interview by late November and have a strong interest in our program, you may reach out to us at that point to request that we reconsider your application.

Approach to Step 1: We accept both COMLEX and USMLE scores, precedence is given to applicants who pass Step 1 with a score of 220 or higher on their first attempt.

Approach to Step 2 CK: Not required for application or interview, must submit step score by rank list deadline.

Post-Interview Communication Policy: We value integrity and transparency, and as such we adhere strictly to NRMP guidelines regarding post-interview communication. You will receive a thank you note for interviewing with us, we are happy to answer questions or provide additional information if it would be helpful to you. Applicants are free to contact or communicate with whoever they wish following the interview day.
